Universal Health Care Foundation of Connecticut — Meriden, CT	\$10,000	<b>Leadership Development &amp; Community Engagement:</b> To achieve health reform tailored to CT that ensures quality, affordable care that is sustainable for individuals and the state economy.

"The Foundation for Community Health, through the Eastern Dutchess Coalition, provides important financial support to bring the Council on Addiction Prevention & Education of Dutchess County (CAPE) initiatives to an underserved area of Dutchess County. We particularly appreciate the commitment of the Foundation for Community Health to partial funding of the Project Success student assistant to serve the students and families of Eastern Dutchess County. In addition, the data from the Search Institute survey provides valuable insights to identify ways in which public schools can improve the quality of life and increase the number of community assets for our young people."

Linda L. Kaumeyer, Superintendent of Schools  
Pine Plains Central School District, NY

## Oral Health

Administration Expenses	\$262,743	\$244,703

\*The Foundation also receives regular income from approximately \$6.5 million held in trust by others.

*"Imagine my surprise when in the stack of Christmas cards that I had just brought in from the mail box, I see the return address of a woman, a fellow parent, that I know from school, but just barely. Why would she be sending me a card this year? The answer turned out to be the best gift I could ever get. She wrote that a week ago, while she was rushing around cleaning the house and trying to eat lunch at the same time, a bite of food got stuck in her throat and in an instant, her breath stopped. She was unable to speak and beginning to pass out, when her 13 year old daughter came behind her and put her arms around her middle and with an upward thrust, the obstruction was launched across the kitchen and the most welcome breath of air filled her lungs. An even harder embrace was given back to her daughter with the question, 'How did you know what to do?!?' Her daughter responded, 'Don't you remember Mom? Our entire eighth grade class got trained in CPR on the last Friday of the school year. My CPR card was attached to my diploma.' This was the best Christmas Card Ever."*

CPR Instructor  
EMS Institute, CT & NY

Eastern Dutchess Rural Health Network

Cyberbullying, Region 1 School District, CT

*"We have a 50 year old, widowed mother of three with one child living at home and financially struggling. The Foundation for Community Health Rx program, and its generous allotment each month, has helped her purchase the medicine needed for her health issues. Having this one relief of stress off her shoulders has helped her focus on other important concerns that she battles with each and every day. She's continuously inspired and strives to do better for herself and her family. She doesn't take assistance for granted and always accepts it graciously. A truly grateful human being!"*

Town Social Service Representative  
Northwest CT

*"It is hard to find the convenience and affordable dental care for both my handicapped daughter and myself that we have received here. "*

Female Dental Patient  
Hudson River HealthCare, NY

Expanded Dental Services,  
Taconic Hills School District, NY
